ALLEGED VIOLATIONS.

Many Complaints Made to Warden Steele, But Evidence is Lacking.

Deputy State Game Warden Steele, when asked this morning about activities in his official field of action, said: "Many complaints are made to me from different parts of Eastern Oregon of alleged violations of the game and fish laws, but the evidence of the same is not forthcoming when I arrive on the ground ready to begin operations."

"Alleged flagrant violations of the law providing fish ladders exist at McNaught's dam, just below the mouth of Rafter creek, and on the Grand Ronde, near Perry. As the latter place it is said that there are two dams, both provided with contrivances which are by courtesy called 'fish ladders,' but as a matter of fact neither can possibly do any good as such."

"I have both instances under advisement, and will give them immediate attention."

MEN ARE POWERLESS

To Fight Against Disease Unless They Strike at the Underlying Cause.

To treat Dandruff, and Falling Hair, with irritants or oils on which a parasitic germ will prosper, is like scooping water from the ocean to prevent the tide from rising.

You cannot accomplish a satisfactory cure without having a right understanding of the fundamental causes of the trouble.

You must kill the Dandruff Germ. Newbro's Herpicide does this because it is specially made to do that very thing.

When the germ is removed, the hair has no choice but to resume healthy growth and beauty.

"Destroy the cause, you remove the effect."

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.
